Cornwall Councillor Report to Kenwyn Parish Council for Gloweth and Shortlanesend

November 2026

Karen La Borde

Chyvelah Ope

I met with Councillor Lusty and Sanctuary Housing regarding maintenance of the play park, paths and highways. Councillor Lusty agreed to follow up all issues relating to Kenwyn Parish and I am seeking clearance of car parking areas which are the responsibility of Cornwall Council as highways authority.

Langarth

I have received complaints about the street lights on the Fordh Langarth being powered by diesel generators. This problem was resolved last month when the Langarth team secured energy to the site.

The stewardship agreement and business case for Langarth are due to be agreed by cabinet in December. Councillor Tudor and I are meeting next week with the consultants preparing the business case.

Idless

The road between Idless and Kenwyn is to be closed between 23rd Nov 2026 and 7th December 2026 for utility asset works.

Treliske Hospital

I attended a meeting with the RCHT along with Councillor Tudor where they presented the proposals for the development of the hospital. A planning application is expected shortly. The current designs may impact parking at the hospital and Councillor Tudor and I will work together to hopefully extend the hours of the park and ride and seek alternative parking solutions with the school, college and hospital.

Speedhumps – Shortlanesend

I still await any suggestions from Cornwall Council about how to reduce the noise impact of the speedhumps which residents in Shortlanesend have brought to my attention.. I will follow up this month.
